

Dear Mr. Ebner-

This is fantastic news! I am so happy to hear about this wonderful offering from DMHC. I cannot begin to tell you how much DMHC has made my "job" as my mother's primary, unpaid caregiver more manageable.

I will share this information with my brothers as they are handling my mother's finances- I cannot do it all :) It's enough for me to keep up with the medical aspect, home care aides and medications for her.

When do we need to sign up by to begin service?

Thank you again for making this work for my mother and others at IV. It's truly a needed and valuable service.

Best,
Heather C.
