

My name is Chris P. I am writing for two reasons. The first is to express how pleased I am with Heather Koren (one of your PAs) and the level of professionalism, kindness and genuine concern she had with my mother today. I personally selected DMHC for my mom based on some research I had done and I'm very happy with my decision. My mother, who is 86 and now residing in an assistant living facility, has had some issues in her life that I believe Heather has pinpointed solutions for or at least found treatments. As I observed her initial assessment of my mother it warmed my heart to see how genuinely caring she was and how quickly she was able to identify the issues my mom was experiencing.
