Dear Friends,

Please convey my gratitude to Dr. Ladak, Dr. Narine and Layla Mabe for the care and kindness shown to my parents, William T. Allen (d. July 10, 2015) and Elizabeth P. Allen (d. January 20, 2016) during their stay at Magnolia Gardens in Southern Pines.

I moved my parents in May of 2015 due to my father's rapidly declining health. Leaving their home of sixty years, coupled with the loss of their independence, was a source of deep sadness to both of them, but the reality was they could no longer care for one another. Doctors Making Housecalls, along with First Health Hospice, provided excellent, compassionate care. I am most pleased with my decision to enlist these services.

Again, my gratitude for helping my parents reach the end of a long, well-lived journey in comfort and according to their wishes.

Peace,

Tom Allen
