

December 29th, 2016

Hello. My name is Lillianne K.,

Back in July of this year, my brother passed away of a heart attack went in for surgery and came out and was on life support for five days and did not make it. I had to then drive to Raleigh to tell my mom her beloved son had passed. I called Magnolia Glen for help and they suggested I call Doctors Making Housecalls. I did and you sent what I believe was an angel, Fauzia Shah.

I cannot express what she has meant to me and my mother. She has helped my mom not only survive my brother's death, but sustain her health. We will be moving my mother to Wilmington to live in a memory care assisted facility that is closer to me. Fauzia was instrumental in helping this transition be positive for mom and me. Fauzia is a great health care provider and more than that she has been our trusted friend that we desperately needed to help navigate our grief and healing process.

Thank you again for everything.

Sincerely,
Lillianne K.
