Durham, North Carolina 27713

November 24, 2015

To the Staff of Doctors Making Housecalls:

I want to thank everyone at Doctors Making Housecalls for the medical care given to my mother, Margaret [REDACTED]. You have watched over her for the last six plus years at Sunrise of North Hills, and at Midtown Senior Living, and did a fantastic job. You were available and respectful at all times. I am sure that you were a major reason for the increase in quality and duration of my mother's life.

I would especially like to thank, Dr. Stephanie Perry for her professional knowledge, her caring attitude, and her willingness to listen to family concerns and opinions. Her medical and communication skills are first class. Doctors Making Housecalls' reputation is enhanced by having such an excellent physician working with them.

The note card we received from you, after my mother's passing, was a further sign that your organization cares for the patients they administer to. I thank you for the remembrance.

Please continue the great work you do. It is very comforting to patients and families to have the care that Doctors Making Housecalls provides.

Sincerely,
