Doctors Making Housecalls

Dear Dr. Taavoni,

I am writing this letter to inform you of my resignation from my position as DMHC Nurse Practitioner effective April 28, 2017. As we discussed in mid-December, my husband, who is employed as an Army officer, has been given orders for his Captain's Career Course in Ft. Lee, Virginia. We are expected to move to Virginia before June 12, 2017. We will be in Virginia for only 6 months and then will be moving to our next duty station. Because of this, I unfortunately have to give you notice of my resignation.

I have learned an incredible amount even in my short time as a nurse practitioner with DMHC. I attribute a lot of that learning to our frequent phone calls while I am seeing patients. You have taught me so much about managing chronic conditions in the geriatric patient population. I have learned to refocus my attention on patient function and quality of life. The knowledge and skills that I have gained during my time with DMHC will absolutely help me in my future endeavors as a nurse practitioner.

Dr. Taavoni, I want you to know that I appreciate how flexible and understanding you have been with my schedule and patient load. You have done everything in your power to keep me from feeling totally overwhelmed by my new job and role. You have always answered my questions promptly and have encouraged me as a new provider. I could not have asked for a better supervising physician.

Despite having to leave, I truly appreciate the opportunities you have provided me in my time with the Doctors Making Housecalls. Please let me know what I can do to assist with this transition. I hope that we can stay in touch, and possibly work together again should the opportunity present itself in the future. I appreciate your understanding in this matter.

Sincerely,

Casey Vinett, AGNP-C
