Beckie M

Not just for old people! I destroyed my back and couldn't get up to get to a doctor, so thank God for these guys and THANK YOU Jennifer Scott for taking such good care of me!!! They [Doctors Making Housecalls] even ordered an X-ray guy to come take X-rays while I continued lying in bed. I'm a healthy person and this back thing has been so weird, and I was terrified because I couldn't get to a doctor. These guys saved the day!!!
