To Whom It May Concern:

I have already thanked Heather Koren, PA, and I also want you as her employer, to know that our experience with her has been only professional, honest and caring. She has been a pleasure to work with.

She was the primary care provider for my mother Ali for some time now. She has been dedicated, caring, clinically competent and thoughtful. Heather addressed symptom progressions with informative and insightful skill as my mom declined. She listened deeply to my concerns and answered with kindness and compassion in a timely fashion. My mom who was very fussy about her care providers appreciated Heather, and always welcomed her visits. Mom died peacefully in her home this past Saturday, and I am very grateful for the care and attention that Heather offered.

Heather is certainly an asset to your organization and a blessing in our lives!

Sincerely,

A handwritten signature in blue ink that reads "Padma D". The signature is written in a cursive style with a large, stylized 'D' at the end.
