

June 14, 2018

Dear Drs. Alan Kronhaus and Shohreh Taavoni:

It is with great pleasure and enthusiasm that my family writes this letter to express our sincerest appreciation for Dr. David Fisher. Dr. Fisher has been my Mother/Grandmother's (Sylvania 'Nana' Wilson) geriatrician for almost two years.

We are most appreciative of the attentive, compassionate, exceptional, and meticulous patient care that my Grandmother has received. Moreover, it's been my families' personal experience that Dr. Fisher's medical acumen (particularly pertaining to geriatric medicine) is highly commendable. Furthermore, his communicative skills are an additional strength, especially when providing care within the context of our three-generation family dynamics. While there have been several changes to the healthcare system over the last few years, which establish guidelines for the amount of time that physicians can spend with their patients during routine visits, Dr. Fisher has always demonstrated great patience, a sincere concern, respect, and compassion for the holistic well-being of my Grandmother. Consequently, he has demonstrated an exceptional dedication to and for her care. As seniors, it's reassuring to know that there are still physicians that remain dedicated to providing exemplary and personal care for their patients.

My 101 year old Grandmother describes Dr. Fisher as "caring and very nice." Additionally, as her caregivers, we appreciate the recommendations he has shared to help us as well. Therefore, on behalf of our family, we appreciate the opportunity to acknowledge you, and to say "Thank You, and God Bless You Dr. David Fisher for your outstanding care!" You are a blessing to 'Nana,' and our family. It is my hope that "Doctors Making House Calls," recognizes you as an outstanding physician within the organization. Truly, Dr. Fisher exemplifies the 'DMHC' motto: "A Better Way To Provide Care..."

With Appreciation,

Sylvania "Nana" Wilson

Dorothy Ann Wilson (Daughter)

Lori Anne Brown (Granddaughter)
